PROFESSIONAL PROFILE

Detail-oriented Computer Science graduate seeking a QA/SQA Internship. Hands-on experience in manual, API, and performance testing with strong knowledge of STLC, defect reporting, and Agile workflows. Eager to learn and contribute to high-quality software delivery.

PROJECT

Web Automation with Playwright

[Github Link](#)

Tool: Playwright, JavaScript

Key Contribution: Developed a modern end-to-end (E2E) automation framework using the Page Object Model (POM) for the Evershop platform.

Technical Implementation: Utilized Asynchronous handling, Auto-waiting, and Trace Viewer to eliminate test flakiness and ensure high-speed execution.

Web Automation with Selenium

[Github Link](#)

Tool: Selenium WebDriver, JavaScript

Key Contribution: Built a robust regression suite using JavaScript to ensure UI stability across different browser environments.

Technical Implementation: Implemented Data-Driven Testing using JSON data sets and handled web elements with Async-Await.

Evershop E-commerce Platform Testing (Manual + API)

[Github Link](#)

Test Case Design: Designed comprehensive test cases for dynamic keyword-based search, product filters, and cart workflows.

Testing Coverage: Performed thorough Positive, Negative, and Edge-case testing to ensure maximum system reliability.

End-to-End Validation: Executed Happy-path testing for the "Nike React" journey, validating full-cycle cart consistency and checkout flow.

API Validation: Conducted API validation using Postman to validating backend responses, status codes, and data integrity.

Full-Stack Verification: Validated end-to-end workflows through both UI and API testing using Postman, ensuring seamless data synchronization.

Defect Management: Documented functional defects in Jira with clear reproduction steps, screenshots, and impact analysis.

SKILLS

Testing: Manual, API, Performance, Bug Reporting

Tools: Jira, Postman, Newman, JMeter, Nmap, Git

Concepts: SDLC, STLC, Bug Life Cycle, OOP

Languages: Java, Python, JavaScript

TRAINING

IT TRAINING BD - Manual & Automation Testing (4 Months).

OSTAD - Manual & Automation Testing (6 Months).

EDUCATION

B.Sc. in Computer Science Engineering - 2025

National University

SOFT SKILLS

Analytical Thinking • Attention to Detail • Team Collaboration • Quick Learner
